

# FRUIT & VEGETABLE WASH

**Fruit & Vegetable Wash** is based on powerful synergistic combination of surfactants that have been laboratory tested and shown to dramatically improve the antimicrobial action of chlorine, and other sanitizing agents in flume tanks and rinse applications. F&V Wash is a highly effective readily biodegradable, non-corrosive, inert cleaning solution. Its ability to wash away harmful dirt and pesticide residues and help reduce bacteria make it a much more powerful solution than using sanitizers alone.

**DIRECTIONS FOR USE:**

**Dump Tanks, Flumes and Drench:** For use in flumes with chlorine (or other sanitizers) dilute 1 gallon of F&V Wash to 800 gallons of water. For spray applications or heavy soiled environments, a maximum of 1 gallon of F&V Wash to 400 gallons of water should be used.

**Compatibility:** This product is compatible with chlorine (at recommended dilution levels), and proven to be compatible with most other sanitizers but a controlled mix test should always be performed prior to batch use. Instructions on other chemicals should be closely followed.

Due to the foaming nature of this product it should be added last into the mixing tank or flume. A food grade anti-foam agent is available from EQ Ag Solutions if needed

**IN COMPLIANCE WITH:**

40 CFR 180.910 (EPA), 40 CFR 180.920 (EPA), 40 CFR 180.940 (EPA), and 21 CFR 173.315 (FDA) CA Reg. No.: 1051177- 50002-AA

**NON-CORROSIVE SOLUTION**

**FOR WASHING PRODUCE AND ENHANCING SANITATION**

**PROVEN!!**  
Laboratory tested and shown to dramatically enhance the effectiveness of antibacterial agents

- ✓ Helps to Extend Shelf Life of Produce
- ✓ Dramatically improves the killing power of Chlorine .

**Disposal:** Product is readily biodegradable. Dispose of using normal septic or municipal sewage facilities according to local and state regulations.

**PRINCIPAL FUNCTIONING AGENTS**

A blend of alkyl sulfonate, Organic acid and an alkyl sulfate.....	36%
Constituents ineffective as adjuvant.....	64%
<b>TOTAL</b> .....	100%

**Caution:**

Keep out of reach of children. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call poison control center or doctor for treatment advice.
